CAPTAIN CANOT, UTHOR OF THE GREAT BOOK JUST BE-

INT PUBLISHED, SPEAKS of HAMPTON'S GREAT CURE OF RHRUMATISM CONTRACTED UNDER TROPICAL CLIMATES. BALTIMORE, Md., June 4, 1854.

Mr. Stockbridge, of the Fountain Hotel, Light street,

Baltimore—
Dear Sir: Being on the point of leaving the city, restored me to the use of my limbs. I beg you to send me four bottles more, to carry on my voyage, since I had the fortune to use Dr. Hampton's Vege table Tincture my confidence is so strong that, in gratitude o the proprietors of said medicine, I beg you to present my respects to them, and induce them to make it more publicly known as a sure Rheumatic cure. Having called on me on the 19th of April last, and seen me prostrated on my bed, usaless in all my li abs, you can appreciate nea ly as well as myself the prompt relief I received from

Dr. Hampton's Tincture, and I am positive had it

tions I should still have been in bed. It is really a pity this specific should not be approved by medical men, and like all patent drugs it should suffer the imputation the public generally give to such preparations. I myself, who was all ways opposed to a patented specific, took this medi sine with reluctance, and without confidence in it and it was only through your disinterested, friendly recommendations, and my critical situation that in-

duced me to try this really beneficial Vegetable You may inform Messrs. Mestimer & Mowbray that they are at liberty to make are of my name in the support of the good effects of Dr. Hampton's Vegetable lincture, as it has cured me in five weeks of a chronic Inflammatory Rheumatism, contracted under tropical climates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformed parts of my hands are fast eturning o their former natural appearance

I have been under the treatment of several phy icians in London and Paris, without any apparent benefit; also, while in New York, having tried the kompsonian and Homospathic remedies, aver havng been tormented with galvanic be teries. cold and aromatic baths, and bundreds of internal and external medicines, all to no effect, I am, so tar. cured by this Hampton's Vege able Tincture only. Therefore, my ear sir, accept of the assurance of my gratitude, and believe me your well wisher. THOMAS CAROT

REV. VERNON ESKRIDGE, U. S. N. PORTSMOUTH, VA, Aug. 18, 1851. ust-pear sir: While I am, in gene ral, opposed to patent medicines candor compels me to state that I have great confidence in the virtue Wri ing Desks, ice Pitchers, Vassa, Bronzes ac, pre- of Hampton's Vegetable Tinsture. For several paratory to receiving their fall supply. Purchasers months past I have used it in my family; and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So lar as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy. I am, respectfully, yours,

VERNON ESKRIDGE. Chaplain, United States Navy.

HOME TESTIMONY.

Messrs Mortimer & Mowbray : Gentlemen-Having been afflicted with Liver Complaint of ten years standing, I hereby, for the b neat of the afflicted, take great pleasure in announcing that after using a few bottles of your Tincture, I found it had ac complished a perfect cure I have used different medicines from time to time, but have never been able to account for any apparent good, and it is a blessing to stricken humanity that that medicine is found which possesses the wonder us power of prolonging numan life. The many cures it has wrought is a sufficient guarantee of the beneficial results which may be experienced from its use. Yours. Call and get pamphiets gratis, and see cures of

CATCH-PFWNIES.

These catch-pennies are often so ingenions and cheap as to deserve a better generic name. There is a man who sometimes stands in Leicester Square. who sells microscopes at a penny each. They are made of a common pill-box. the bottom taken out, and a piece of window glass substituted. A small eyehole is bored in the lid, and thereon is placed the lens, the whole apparatus being painted black. Upon looking through one of those microscopes I was surprised to find hundreds of creatures, apparently the size of earth worms, swimming about in all directions; yet, on the object glass nothing could be seen but a small speck of flour and water, conveyed there on the end of a lucifer-match from s common inkstand, which was nearly full of this vivified paste. Another microscope exhibited a single representative of the animal kingdom showing his impatience of imprisonment by kicking vigorously. Though I must confess to a shudder, I could not help admiring the beauties of construction in this little monster, which, if at liberty, would have excited murderous feelings unfavorable to the prolongation of its existence. The sharp-pointed mouth, with which he works his diggings; his side-claws, wherewith to hold on while at work; and his little heart, pulsating slowly but forcibly, and sending a stream of blood down the large vessel in the centre of his white and transparent body, could also be seen and wondered at. When the stock of this sort of game runs short, a common carrot-seed is substituted; which, when N.
